Re: THE MASSAI GIRL

LETTER OF INTENT

FILM FIVE GmbH have supported the development of the feature film THE MAASAI GIRL from its earliest stage. The film is based on the personal story of Charity Resian Nampaso, who is also taking part in the development of the project as Co-Author, in collaboration with the film director Andrea Iannetta. Unfortunately, the theme of the film, FGM, (female genital mutilation) is still very relevant today. It is still practiced in many countries, not only in Africa, and affects the lives of millions of girls, women and their families.

Through the way Charity tells her story (also visible in the short documentary film "AGAINST ALL ODDS" the previous collaboration between Charity Resian Nampaso and Andrea Iannetta) we are convinced that the project has the potential to become a highly emotional fiction film, centered on the story of a rebellious girl, who breaks the traditions of her family and community and successfully fights for her integrity and freedom.

We see the final product as an arthouse film that can reach a wide audience and perform well in the festival circuits. We are also aiming at a TV distribution in German-speaking countries. The Robert Bosch Stiftung fund enabled us to complete the research phase and the writing of the film treatment.

With this new step we wish now to move on to the development of the script. In addition, we want to edit a teaser with the material shot in Kenya during the research phase, that expresses the mood and the setting of the film. FILM FIVE GmbH is happy to support the team during the process of realization of the film.
